PROFILE

Hi, my name is Ansh Jain and I am from New Delhi, India. I'm a MERN stack web developer and a college student pursuing BTech in CSE. I have a Passion for creating original projects with beautiful designs, and you can explore some of my work in the projects Section. I am open to new collaborations or work where I can contribute and grow. Feel free to connect with me, links are in the footer. Apart from coding I enjoy playing chess and badminton in my free time.

PROJECTS

NFT Marketplace

The NFT marketplace project is a decentralized platform that enables users to explore, buy, and sell NFTs seamlessly. It provides a user-friendly interface for creators and collectors to manage their digital assets securely and efficiently.

Technologies Used: React, Node.js, Next, Solidity

Youtube 2.0

The YouTube clone is a React JS-based platform for streaming, uploading, and interacting with videos.

Technologies Used: Tailwind CSS, React JS, Material UI

ACHIEVEMENTS

Solved 350+ DSA questions on LeetCode, showcasing strong problem-solving skills.

Completed a MERN stack course to master full-stack web development.

Built multiple full-stack projects, including an NFT marketplace and a YouTube clone.
